

**Four Ground rules**

1. We try to complete our assignment 1-2 days before for the final review.
2. We will segregate the parts and when we are done we verify with other partners.
3. We try to update each other whenever we make a progress for the assignment
4. If there is an issue with completing work, we will discuss it with the rest of the group

**Three things**

1. Miscommunication. This can be solved by having a group chat so we can directly communicate with each other.
2. Not delivering work on time. This can be solved by delegating tasks to each member of the group so everyone can contribute and we can finish on time.
3. Not being mean to anyone and respecting every opinion.

**Finish this sentence:**

We function best in groups when we work and progress together ,use our knowledge and give an amazing try to accomplish the assignment.

We really hope our group can successfully complete every task and deliver work on time.

**Motto**

“If you want to hire a team, choose group 14”
